Invisible Disease

Although a room or closet appears perfectly clean to the eye, it may cantain millions of dangerous disease germs

awaiting the opportunity to attack some one with a rundown constitution. To guard against sickness use a disinfectant in every room. When cleaning the parlor, bedroom, kitchen or bathroom, add a non-poisonous germicide like CN Disinfectant to the water. Flush the sinks and tollets with this disinfectant and kill all musty odors

about the plumbing. Remember, disease may be in your house for weeks without your knowledge, and you must disinfect thoroughly to prevent it attacking your dear ones

To all Cleaning Water add won the 110-metres hurdle race in the Olympic tryouts last Saturday and was awarded a place on the American Olympic tryotts last Saturday and was awarded a place on the American Olympic team.
